Immediate joiner

5+ years UI/UX & product design

50,000+ Sporfy B2C app downloads

25+ apps designed across my roles

US, Philippines & India PM & developer teams

Summary

Senior UI/UX & Product Designer with **5+ years** building **design systems**, **accessible SaaS products**, and consumer apps. Designed a B2C booking app that reached **50,000+ downloads**, led **3 products end to end**, and cut design-to-dev handoff bugs by **~50%** through a tokenized design system. Recently shipped a **live QR-code SaaS** (Claude Code + React) and co-owned UX for a multi-country **B2B ERP**.

Experience

Senior UI/UX Designer at AffinityX ↗

Sep 2025 – Oct 2026

AffinityX (on payroll via Huntsmenbarons) · Remote, US · Marketing and production services · 1 of 2 designers, with PM and developer teams in 3 countries · Role eliminated in company restructuring

- Co-owned UX & UI for **Titan, a SaaS back-office/ERP product**, for ops teams in the US, Philippines and India.
- Built a tokenized **MUI v6 + Figma design system** (60+ components, light/dark modes) for Titan.
- Cut handoff bugs from **~10 to 5 per sprint** and sped delivery **~25%** (PM estimate via automation testing).
- Audited every table and dashboard, benchmarked Jira, shipped **skeleton loading**. Case study ↗
- PM estimated **~40% shorter perceived waits**; "app is stuck" reports dropped to zero.

Founding Member & Design Lead at Liffto Technologies LLP

Nov 2024 – Jul 2025

Tiruppur, India · Software for hospitality, retail, logistics and AI-based IT services (company since closed)

- Led end-to-end UI/UX, idea to launch, for **3 products** on one shared Figma design system.
- **Cyberdine** ↗ (restaurant POS, B2C scan-to-order): sole designer, research to handoff.
- At peak, **up to 15 restaurants** and **about 600 orders a day** (ordering and billing).
- **Steadfast** (AI client-management app): designed how staff review and correct the AI's output; in daily use.

UI/UX Designer at SRM Technologies ↗

Nov 2023 – Sep 2024

Chennai, India · Digital, embedded and product engineering services

- Designed **enterprise application and website UI/UX** in Figma within Agile teams.
- Built **design systems for 3+ apps and websites** with WCAG-accessible components and micro-interactions.

UI/UX Designer & Visual Designer at Sporfy India Pvt Ltd

Jul 2021 – Oct 2023

Coimbatore, India · now Sporfy Technologies Pvt Ltd · 4-person design team

- Designed **Sporfy** (B2C turf & event booking) **end to end**, with user research: **50,000+ downloads**, **30,000+ booked**.
- Created **5,000+ screens** across a **20+ app sports ecosystem** (mobile, web, admin).
- **Sporfy Tracker** ↗ (sole designer): mobile-first ERP for payroll, accounts, attendance, fees.
- Aligned PMs and **80+ developers** on one design system, working directly with the Co-Founder & CEO (ex-Microsoft).
- Mentored junior designers; Employee of the Year 2022, 2 Quarterly Awards, 2 Pat on the Back.

Some of my projects

QR Code SaaS ● Live
Designed and coded with AI (Claude Code, React). Editable QR codes with scan tracking.
Try it live ↗

Titan, skeleton loading for B2B SaaS
Audit, research, wireframes, UI and handoff in 2 weeks. Client data redacted.
View case study ↗

Cyberdine, QR dine-in ordering & billing
Sole designer: diner app (35 screens) and restaurant app (~200 screens), Figma to handoff.
View case study ↗

Sporfy Tracker
Mobile-first ERP app for payroll, accounts, attendance and fees, designed over 3 months.
View case study ↗

RedBus Daily Rider Pass
Route pass with one-tap booking and live tracking.
